The Science of Health!

Every Man his own Physician.

HOLLOWAY'S PILLS
—AND—
Holloway's Ointment.

Disorders of the Stomach, Liver and Bowels.

The stomach is the great center which influences the health or disease of the system—abused or debilitated by excess—indigestion, offensive breath and physical prostration are the natural consequences. Allied to the brain, it is the source of headaches, mental depression, nervous complaints and unrefreshing sleep. The Liver becomes affected and generates bilious disorders, pains in the side, etc. The bowels sympathize by costiveness, diarrhœa and Dysentery. The principal action of these Pills is on the stomach and the liver, lungs, bowels and kidneys participate in their recuperative and regenerative operation.

Erysipelas and Salt Rheum

Are two of the most common and virulent disorders prevalent on this continent. To these the Ointment is especially antagonistic; its *modus operandi* is first to eradicate the venom and then complete the cure.

Bad Legs, Old Sores, and Ulcers.

Cases of many years' standing, that have pertinaciously refused to yield to any other remedy or treatment, have invariably succumbed to a few applications of this powerful unguent.

Eruptions of the Skin,

Arising from a bad state of the blood, or chronic diseases, are eradicated and a clear and transparent surface regained by the restorative action of this Ointment. It surpasses many of the cosmetics and other toilet appliances in its power to dispel rashes and other disfigurements of the face.

Female Complaints,

Whether in the young or old, married or single at the dawn of Womanhood, or the turn of life, these tonic medicines display so decided an influence that a marked improvement is soon perceptible in the health of the patient. Being a purely vegetable preparation. They are a safe and reliable remedy for all classes of Females in every condition of health and station of life.

Piles and Fistula.

Every form and feature of these prevalent and stuborn diseases is eradicated locally and entirely by the use of this emollient; warm fomentations should precede its application. Its healing qualities will be found to be thorough and invariable.

Both the Ointment and Pills should be used in the following cases: Bunions, burns, chapped hands, chilblains, fistula, gout, lumbago, mercurial eruptions, piles, rheumatism, ringworm, salt-rheum, scalds, skin diseases, swelled glands, sore legs, sore breasts, sore heads, sore throats, sores of all kinds, sprains, stiff joints, tetter, ulcers, venereal sores and wounds of all kinds.

CAUTION.—See that the words "Holloway, New York and London," appear as a watermark on every leaf of the book of directions which enfolds each box or pot. No others are genuine. A handsome reward given for information leading to the detection of counterfeiters of the medicines and venders of the deceptive articles, knowing them to be such. Sold at the manufactory, No. 80 Maiden Lane, and by druggists and medicine dealers throughout the world. A great saving by taking the large sizes. Full instructions with every box or pot.

Reward.

Who, looking backward from his manhood's prime,
Sees not the spectre of his misspent time?
And through the shade
Of funeral cypress planted thick behind,
Hears no reproachful whisper on the wind
From his loved dead?

Who bears no trace of passions's evil force?
Who shuns thy sting, O terrible remorse?
Who does not cast
On the thronged pages of his memory's book,
At times, a sad and half reluctant look,
Regretful of the Past?

Alas! the evil which we fain would shun
We do, and leave the wished-for good undone:
Our strength to-day
Is but to-morrow's weakness, prone to fall;
Poor, blind, unprofitable servants all
Are we alway.

Yet who, thus looking backward o'er his years,
Feels not his eyelids wet with grateful tears,
If he hath been
Permitted, weak and sinful as he was,
To cheer and aid, in some ennobling cause,
His fellow-men?

If he hath hidden the outcast, or let in
A ray of sunshine to the cell of sin—
If he hath lent
Strength to the weak, and, in an hour of need,
Over the suffering, mindless of his creed,
Or home, hath bent,

He hath not lived in vain; and while he gives
The praise to Him, in whom he moves and lives,
With thankful heart
He gazes backward, and with hope before,
Knowing that from his works he nevermore
Can henceforth part.
—[John G. Whitter.

THE FIFTEENTH AMENDMENT.—Hon. S. F. Cary, the great representative man of the Workingmen of the West, has written a letter to a Cincinnati paper, from which we take these pungent paragraphs:

"With a full knowledge of the fact that the Constitutional three-fourths of the States would not voluntarily ratify the amendment, and assured fully that there was no other way to perpetuate the power in the hands of the Republican party but by the votes of Negroes, Congress made it a condition precedent that Virginia, Mississippi and Texas should approve this measure before they should have their places in the Union and representation in the councils of the nation. What fraud might fail to accomplish, force is invoked to complete.

"Congress has no more right to shut out Representatives from Texas until she ratifies the amendment, than it has to turn out Ohio's Representatives because her Legislature rejected it. The American people would be fully justified in treating as a nullity an amendment adopted by fraud and force, and the Fifteenth Amendment cannot be ratified in any other way.

"I am in favor of leaving the question of suffrage where the Federal Constitution now leaves it; viz: to the States respectively. The people of Ohio decided two years ago, by a majority of more than 50,000, against negro suffrage, and although I voted with the minority, having since witnessed elections in the District of Columbia, and from reliable sources having learned the mode of conducting elections in States where negro suffrage is allowed, I am satisfied that the decision of that majority was wise."

THE COMING EMPIRE.—The *Call* thinks that fears of an Empire in this country are groundless, because "there is not a man in the United States fitted to control the affairs of a petty principality, to say nothing of an Empire." That is an excellent reason why an Empire should not be established, but it is not always the wisest and best men who conspire to overthrow Governments for their personal aggrandizement. Capacity or fitness has nothing to do with men's ambition and aspirations, or with their success in this country. The men who get office nowadays are, as a rule, dishonest and incompetent, yet they manage to bamboozle the people. We dare say that there is no one among the conspirators who would make a respectable Emperor, but the conspiracy exists, nevertheless, and there is no doubt but that there are plenty of men who would gladly accept the crown if tendered, or attempt to seize the Government if they saw a prospect of success.—*S. F. Dispatch.*

NO GUILE IN JESUS. — Beautiful words these. *No guile*—nothing ever susceptible of mistake, or desire to conceal. How clearly he declares, when speaking of the rest of Heaven, "If it were not so I would have told you"—implying that truth would have obliged him to correct their anticipations, if false, as well as unfold the revelation of eternal life. Think of him in the busy scenes of the market and the temple, sitting at the Pharisee's banquet, and eating at the Publican's table, yet ever and often revealing hidden hypocrisy and interpreting the sincere sign of forgiveness and peace. True in what he said; true in what he threatened; true in what he promised; true in what he corrected; true in what he revealed.

THE heart may be engaged in a little business as much, if thou watch it not, as in many and great affairs. A man may drown in a little brook or pool, as well as in a great river, if he be down and plunge himself into it, and put his head under water. Some care thou must have, that thou mayest not care. Those things that are thorns indeed, thou must make a hedge of them, to keep out those temptations that accompany sloth, and extreme want, that waits on it; but let them the be hedge; suffer them not to grow within the garden.

FRANKLIN'S OPINION OF LAWYERS.—Apropos of the nomination of Judges by lawyers this year in some places, independently of party conventions, we give shrewd old Ben's views of the matter, when agitated in his times; he says: "I think Judges ought to be appointed by lawyers, for in Scotland, where this practice prevails, they always select the ablest member of the profession, in order to get rid of him, and share his practice among themselves."

No man grows great by employing his faculties for his own good alone. Men are great in the direction of exerting themselves for others. The more we rise, the nobler we become. He is the greatest man who does the most for his fellow-men; and he is the lowest man who does the least for his fellow-men.

The Law and Manners of the Road.

All of us have ideas more or less correct, in regard to the law which regulates our use of the highways; and at any rate good sense and good nature are usually very safe guides. A few words on the subject, however, may not be amiss.

It is commonly said that every one has a right to half the road. This is practically true, and comes about in this wise. You and I meet upon the road—our legal rights are exactly equal, and both have a right to go our several ways without obstruction, so, popularly, we say I own half and you half. The law steps in and facilitates matters, and directs each to turn toward his right hand. This is true, whatever the load or the team; for if one can drive such a team that another can pass him but with difficulty or at all, then their rights are no longer equal. This point becomes very important in winter, for it is no joke to turn your horse and all into the deep snow while your neighbor goes smoothly along in the beaten track. No one has a right to so load his team as not to be able to give up half to whoever demands it.

A footman may choose the part which pleases him or any portion of his right hand or left of the way, and the team must yield it to him. This is clearly so in the winter, and no man is obliged to step into the snow for one or two horses. This is the law and the court award it.

Now for the manners of the road; which, in some instances, vary from the law thereof.

The first requirements of the road manners is good nature and an accommodating spirit. Do to others as you would have them do to you. Always be willing to yield more than half the space, then you will be pretty sure to be equally treated. They who exact inches will have inches exacted of them. If your neighbor has a heavy load, consult his convenience as far as possible; you may sometimes be loaded. It has become a practical rule of courtesy to turn for heavy loaded teams, especially in winter, and when the roads are heavy. But remember it was a favor, and not your right, and you have a reciprocal right to perform, and one which, I am sorry to observe, is not always borne in mind.

One word in relation to teams going the same way, in which case many seem to think there is neither law nor manners. When a team comes up behind you, that team has a right to a reasonable space and opportunity to pass on, in fact to half the road for that purpose, and your obstructing him in his lawful desire is both bad manners and bad law. If your load is heavy, do the best you can. In most cases the very least that can be asked is that you should stop. This is particularly so in the winter when it is a heavy tax on a team to force it into a trot in deep snow, or deep mud, or frozen ruts—made necessary by your continuing to move on. Remember the good old aphorism, which can be so opportunely applied here—"wheel grease is a great lubricator, but good manners a vastly greater one."—*Ex.*

WEARING FLANNEL.—In our climate, fickle in its gleams of sunshine, and its balmy airs, as a coquette with her smiles and favors, consumption bears away every year the ornaments of many social circles. The fairest and loveliest are his favorites. An ounce of prevention in this fatal disease is worth many pounds of cure, for when once well-seated, it mocks alike medical skill and careful nursing. If the fair sex could be induced to regard the laws of health, many lives might be saved; but pasteboard soles, the low-necked dresses, and lilliputian hats, sow annually the seeds of a fatal harvest. The suggestion in the following article, if followed, might save many with consumptive tendencies from an early grave:

"Put it on at once; winter and summer nothing better can be worn next to the skin than a loose red woolen shirt; 'loose,' for it has room to move on the skin, thus causing a titillation which draws the blood to the surface and keeps it there; and when that is the case no one can take cold; 'red,' for white flannel fulls up, mats together, and becomes tight, stiff, heavy and impervious. Cotton-wool merely absorbs the moisture from the surface, while woolen flannel conveys it from the skin and deposits it in drops on the outside of the shirt, from which the ordinary cotton shirt absorbs it, and by its nearer exposure to the air it is soon dried without injury to the body. Having these properties, red wool flannel is worn by sailors even in the midsummer of the warmest countries. Wear a thinner material in summer."

A CURE FOR FOUNDER.—It may not be generally known that the seed of the sunflower is the most infallible remedy yet discovered for the speedy cure of founder in horses. The directions, which we glean from an exchange, says: Immediately on discovering that your horse is foundered, mix about a pint of the whole seeds in his food, and it will perfect a cure. Sunflowers are easily grown alongside of fences and out of the way places, where they take up but little room. The seed, when fed in small quantities to the horse, is very healthy, giving to the hair a peculiar glass. It is diuretic in its tendency. Fowls like it very much, and thrive on it Try it.

BE STEADFAST.—Never let your honest conviction be laughed down. You can no more exercise your reason if you live in constant dread of ridicule, than you can enjoy your life if you live in constant terror of death. If you think it right to differ from the times, and make a point of morals, do it—not for insolence, but seriously and gravely, as if a man wore a big soul of his own in his bosom, and did not wait till it was breathed into him by the breath of fashion. Be true to your manhood's conviction, and in the end you will not only be respected by the world but have the approval of your own concience.

A FARMER who had engaged the services of a son of the Emerald Isle, sent him out one morning to harrow a piece of ground. He had not worked long before nearly all of the teeth came out of the harrow. Presently the farmer went into the field to take notes of Pat's progress, and asked him how he liked harrowing." "Oh!" replied Pat, "it goes a bit smoother now since the pegs are out."

"Please don't Step there, Sir."

A layer of snow was spread over the icy streets, and pedestrians shod with India-rubber walked cerefully toward the village church, on a cold Sabbath morning in February.

Walking somewhat hastily churchward, for I was cold, I noticed a bright-looking little lad standing upon the pavement, with his cap in his hand, and his eyes fixed upon a spot in the sidewalk. As I reached him, he looked up to me, and pointing to the place, said:

"As on the path of life we tread,
We come to many a place—
Where, if not careful, we may fall,
And sink in sad disgrace.

Some idle habit, word or thought,
Some sin, however small,
May make us stumble in the path,
And stumbling, we may fall.

Our fellow-travelers on the road,
We'll watch with anxious care.
And when they reach some dang'rous spot
We'll warn them—'Don't step there!'"

"Please, don't step there, sir—I slipped there, and fell down."

I thanked the philanthropic little fellow, and passed around the dangerous spot.

"Don't step there," was the theme of my meditations during the remainder of the walk.

A thousand times since has the clear, ringing voice of that kind-hearted child rung in my ear, reminding me of my duty to those around me, and urging me to repeat wherever it promises to be useful: "Please, sir, don't step there!"

When I see a boy tempted to go with youths who smoke, drink, or gamble, I would say, "Don't step there!"

When I see a youth entering the path of the Sabbath-breaker, I would cry, "Don't step there!"

When I see boys or girls commencing a course of disobedience to parents, I would say, "Don't step there!"

New Way of Eating.

Ella rushed into her mother's room, just from school, and flushed with excitement; but instead of kissing her mother the first thing, as she generally did, she threw her books into the nearest chair and stood before the looking-glass arranging her curls, and appeared to be admiring herself generally.

"O, mother!" at last she began, excitedly, "what do you think Miss Whitney said to me? Why, she said, 'I declare, Ella, you are growing quite beautiful. I should not be surprised if you should be the belle of Cooville some day."

A peculiar smile flitted across her mother's face, as she answered, "I am afraid, Ella, my dear, you have swallowed some poison."

Down went Ella's hand from off her curls in a moment, and her face was very white as she turned from the glass.

"Poison!" she exclaimed; "O, mother, how! Was it in the cake? I ate a good deal of—"

"Oh, Ella, Ella dear," interposed her mother, "I did not intend to frighten you so. No it was not in the cake. I merely meant that you had been swallowing poisonous words."

"O!" gasped Ella, looking much relieved, and then half laughing, added, "and you thought you'd pump them up immediately, did you, mamma?"

"I did not mean to frighten you," repeated her mother, "but I was thinking that the 'ear trieth words as the mouth tateth meats.' You did not perceive the flattery in Miss Whitney's words, any more than you would have detected poison in the cake, had there been any—you swallowed them both with equal pleasure, because they tasted good. But you forgot in a moment the probability of your ever becoming the belle of Cooville, when you thought you were poisoned just now."

The color came back very rapidly into Ella's face as her mother said this; but ever after she was very careful about what she "ate with her ears," as she said.

FACE THE MUSIC!—The Sacramento *Bee* says it favors the adoption of the Fifteenth Amendment, which will enfranchise every negro in the land—says the "Union" party of California endorses, but that they "have too much good sense to go around the countrp howling like dervishes" about it. Now, that is very smart in you, certainly. Of course you and your party endorse it, and next winter every Republican in the Legislature of California will vote for its adoption. Of course you and your party won't "go about the country howling like dervishes" about it; and simply because you fear it would injure your ticket. You claim, however, that it is not an issue before the people—that the Amendment will be adopted without the vote of California. Such is not the case, and you know it, and the people know it, and furthermore, they intend you shall face the music. The political complexion of the next California Legislature will decide the fate of the Fifteenth Amendment. If the Republicans carry both branches of the Legislature its ratification is certain to follow. Should a majority of Democrats be sent to Sacramento it will be defeated. The people know the issue for their decision on the first day of September next, and they are determined, Mr. *Bee*, that your party shall face the music. An important question is to be decided. That question is: Shall negro suffrage be forced upon California, and upon every other State in the Union? The people have determined to vote "no," and you will gain nothing by attempting to dodge. Come out like men, if men you be, and—FACE THE MUSIC.—*Napa Reporter.*

A LUCKY MAN, GEN. GRANT.—Admirers at Trenton, New Jersey, have presented him with fifty acres of land, all because he has appointed a New Jersey man, a lawyer, who knows no more about naval affairs than a Chinaman—Secretary of the Navy.

AN eloquent orator proposes to "grasp a ray of light from the great orb of day, spin it into threads of gold, and with them weave a shroud in which to wrap the whirlwind that dies upon the American prairies."

NEW ISSUE.—Secretary Boutwell has decided to call in all the old issue of Greenbacks, replacing them by new bills of the various denominations. The old notes have been badly counterfeited.

SWAPPING.—In Sonoma and in other counties of the State the Radicals have already commenced a swapping game in the judicial race—offering votes for Crockett for a return vote for Sawyer—knowing well that unless something of the kind is done neither of their candidates can be elected. Half a loaf, certainly, is better than none; but gentlemen, Democrats are not on the trade. They know too well the importance of electing *both* their candidates in October next. To give you one will not change the political complexion of the Supreme Court. To elect both of their candidates will give them a majority of the Court. Democrats are tired of Republican decisions. Don't you see the point? If not you will be able to discern it very distinctly in October.—*Napa Reporter.*

THE NEW BUILDINGS for the State Institution for the Deaf and Dumb and the Blind are rapidly approaching completion, and the time for reopening the School is drawing near. It is not an asylum but an educational establishment. All deaf and dumb and blind persons, resident of this Siate, between the ages of six and twenty-one years, of sound mind and body, will be received without charge save for clothing and traveling expenses. Any person knowing of any one thus afflicted, will confer a favor by addressing the Principal, Warring Williams, at Oakland, Alameda county.

AYER'S AMERICAN ALMANAC, for 1869, has been received by the druggists for delivery gratis, to all who call for it. The number contains proofs to show that some of the stars have existed for *sixty millions of years.* We had not supposed such proofs possible, but the Doctor gives it in a shape which seems indisputable. His witicisms have long made his book acceptable; his medical advice makes it indispensable to families, and now he adds the most startling problems of abstract science to its attractions.

GOOD SHOWING.—A New York dispatch says:

"The earnings of the Central Pacific Railroad for July were $579,000—$25,000 over the month of June. The rate of earnings for the last three months is about $8,000,000 per annum, of which $3,000,000 are net earnings. The annual interest liabilities of the Company on the whole bonded debt is less than $1,000,000."

GEO. H. PENDLETON has been nominated as Democratic candidate for Governor of Ohio and has accepted the nomination. Gen. Rosencrans declined the nomination on account of inligebility.

HON. FRANK SOULE, poet, historian, and editor, and one of the most active and earnest of the old-line Republicans, is now editing the San Francisco (Democratic) *Call.*

AT a late fire in Philadelphia over 40,000 barrels of liquor were consumed. It is perhaps better that the liquor should be consumed by fire than in the ordinary way.

RATIFYING THE FIFTEENTH AMENDMENT.—The marriage of a Mr. Hicks (white) to Miss Addie McComb (colored) took place at Sacramento the other day.

A CALCUTTA savant named Cameron, has startled India by the affirmation that a race of tailed men and women are to be found in the forests of Boreno.

THE revised and corrected official returns of the Virginia election make Walker's majority 18,331. The whole vote was: Walker, 119,535; Wells, 101,204.

DEMOCRATIC MEETING.—Gen. W. T. Wallace and Creed Hammond, Esq., will speak at Woodland, Friday evening, August 27th.

ALISON RANCH.—At a depth of 400 feet rock is now being taken out which pays $200 per ton, exclusive of sulphurets.

IMPORTANT QUESTION.—Some learned exchange wants to know if it is possible for a "nigger" to have the white-swelling.

E. A. ROCKWELL, of the *Call*, has been nominated by the Democrats of San Francisco for the Assembly.

VICE-PRESIDENT COLFAX and party have arrived in San Francisco.

What it Means.

It is claimed (for effect upon the ensuing election) by the Radicals, that the adoption of the Fifteenth Amendment does not and cannot confer rights of citzenship upon Chinese and Mongolians; that it is possible to support the Amendment and yet be opposed to universal suffrage. Let us see what the leaders of the Radical party think about, and what their intent was in passing the Amendment. When under consideration in the Senate, Mr. Corbett offered an amendment to the first resolution as follows:

"But Chinamen not born in the United States and Indians not taxed shall not be deemed or made citizens."

In the debate which ensued Senator Sumner said:

"I content myself for the present with saying that the word 'white' should be struck from the statute book. That is necessary to bring our laws and institutions in harmony with the Declaration of Independence."

Senator Yates said, in reply to the remark of Mr. Doolittle, that "striking the word *white* from our naturalization laws would, under the Fifteenth Amendment, confer the right of suffrage upon the Chinese in California." "I wish to inform the Senator that it seems to me on this very day by a vote of 24 to 19, we have declared that there shall be no restriction upon suffrage on account of race, color, intelligence, education or property. So the Senator from Wisconsin is right that the party is committed to universal suffrage, pure and simple."

Senator Morton said:

"As the Naturalization laws now stand, Chinamen cannot be naturalized; but I believe the word 'white' will be stricken from the Naturalization laws. I believe that it will be consistent, and it will be harmonious with the condition of things in this Amendment for impartial suffrage, that the word 'white' shall be stricken from our Naturalization laws."

Senator Cameron was in favor of striking the word "white" from the statute book. He said:

"I am in favor of the proposition of the Senator from Massachusetts, because it invites into our country everybody; the negro, the Irishman, the German, the Frenchman, the Scotchman, the Englishman, and the Chinaman."

Senator Trumbull, Chairman of the Judiciary Committee, and an able lawyer, said:

"I hope that amendment (Corbett's,) will not be adopted. When we are striving to amend the Constitution of the United States upon the great principle of securing equal rights to all, it seems to me to be very inconsistent with that action to insert a clause that the people of the most populous portion of the globe are to be excluded from this provision. When we are declaring that the Hottentots and Cannibals from Africa shall have the right to vote and hold office, it seems to me paradoxical to insert a clause that citizens of the oldest empire of the earth, citizens from that country which in many respects excels any other country on the face of the globe, in the arts and sciences, among whose population are to be found the most learned and eminent scholars in the world, shall be excluded. When we are seeking to carry out the great principles of human rights, that proposition seems to me so remarkable that I cannot think it can obtain any considerable support in this body."

Mr. Corbett's amendment was lost. We have shown what was the intent of the Radical leaders in passing the Amendment and what they believed would and of right should be its effect. Is it not enough? Let us hear no more nonsense about its not being intended to confer suffrage upon anybody but a very few intelligent colored men in the Northern States. It means *Universal Suffrage.* Nothing less.

BANKRUPT LAW.—It is probably not generally known that the State Bankrupt Law is not in force, it having been suspended by the National Bankrupt Law since the 1st day of June, 1867. Such is the decision of the Supreme Court in the case of Martin vs. Berry, all the Judges joining in the decision. A debtor obtaining a discharge from one-half of his creditors, may be released though he have no property. Where no debts are proved against a bankrupt he gets his discharge though he has nothing. Where a majority of creditors oppose a discharge the estate must pay one-half the claims against it. We will try and make room for the decision referred to above next week.

OUR readers have observed that we rarely praise patent medicines, and that we advertise only the very best of them. But now, the remarkable recovery of Mrs. Rice, of Canastota, from her distressing and almost helpless scrofulous disease, which is known throughout the community, and unquestionably the effect of Ayer's Sarsaparilla, leads us to publish without reserve the remarkable efficacy of this medicine. We do this in the interest of the afflicted. Any remedy which can so effectually "raise one from the dead," should be universally known; and we wish it may be universally as successful as it has been in the case of Mrs. Rice.—*Daily Journal, Syracuse.*

SEMMES' BOOK.—"Service Afloat," is the title of a book just published by Admiral Semmes, of the Confederate navy, and well remembered as the Commander of the Confederate cruisers Sumter and Alabama. The author gives us a personal memoir of his services during the war, with incidents and personal notices of his officers. The book contains numerous fine steel engravings and is altogether one of the most readable of all the late published works. The work is only sold by subscription. H. H. Bancroft & Co. are general agents for the Pacific coast. Wm. Connor agent for Yolo county.

CHANGED.—The Solano *Sentinel* has changed proprietors and also name. It is called the Solano County *Democrat* and is under the management of Thos. L. Thompson. The first number of the *Democrat* has produced a very favorable impression.

NEARLY four thousand persons starved to death in the great city of London last year.

The Question.

At the last general election the people of this coast observed for the first time something like a direct trial between capital and labor. It was, as nearly as possible, a combat between avowed monopolists and the men whose capital consists of brain and muscle. The result of that election proved clearly to the monopolists, that the only thing left them was the old plan, devised long ago and now nearly consummated, of letting-in upon the white voters all the inferior races and making a republic something like that now so beautifully illustrating itself in Mexico. At first it was difficult to attract the attention of the people to the real state of things, because they were artfully kept pre-occupied by the events which resulted in the recent war, and since the war it has been difficult to clear away the ill feeling and passion engendered by the demagogues who have in charge the interests of the class that made money by the war. But at last the most near-sighted and indifferent of luke-warm observers are beginning to see that, unless a speedy check is given to the Radical leaders, we are on the eve of consummating a system which will cause every man who is not a capitalist to be a serf. All the industries and trades requiring but little capital will soon be in the hands of the Chinese and other inferior races. For example, we already see with how much avidity the capitalists of the great cities East of us are bidding for the cheap labor of the Chinese, and we know how surely those people are taking the bread out of the mouths of our former operatives in San Francisco. The same process which induces a white girl in San Francisco to abandon the sewing machine she has recently been working on, to betake herself to something else for a bare living, will extend all over the country and there will be a general cheapening in every branch of the industries, which cannot benfit any but the wealthy-employing classes. In the large manufactories of clothing in San Francisco, within the past year, more than three hundred women and girls have been thrown out of employment on sewing machines, because they could not keep body and soul together on the wages for which Chinamen were doing the same work. In many other branches the same thing is going on, and it is only a question of time how long it will be before, under the encouragement of the Fifteenth Amendment, two or three millions of Chinamen will be infused into our population to ruin the working classes and benefit the money classes.

If we lament this state of things and idly stand by and see capital trample the industries into the dust, it will be be our own fault.

THE FRENCH CABLE.—The successful laying of the French Cable, connecting the French coast with ours, is another of those great feats which will, in all time to come mark this as the age of grand achievements. A lesser affair, but still something great in its way, is a little fact connected with the matter. The sovereign State of Massachusetts, the leader in a plan of centralization which is intended to deprive the States of all their powers and make the Union an Empire, just by way of a parting illustration of "States' Rights," has ignored Uncle Sam altogether and granted, by treaty, to the Cable authorities and Louis Napoleon, the right to land on our Atlantic coast! Pretty good for old Massachusets! This is the third time she has set up practically the doctrine of State Rights. The first time was when she denied the rights of the general Government under the Fugitive Slave law; the second, when, just after the admission of Texas into the Union, she solemnly passed a resolution that the act of admission was an infamous usurpation of power and that the Union was consequently dissolved. Spunky, rantankerous Massachusetts!

IN the United States Land Office for the Marysville Land District, Marysville, California. The people of the United States to JAMES MARSHAL, send greeting: You are hereby summoned to appear before me at my office in the city of Marysville, on the 8th day of September, A. D. 1869, at 1 o'clock P. M., to contest the claim of Ozias B. Simpson, avering your claim to the north-east quarter section 13, township 8 north, range 2 east, to be unjust and illegal, and then and there do you show cause, if any there be, why the claim of said Ozias B. Simpson shall not be recognized as just and legal, and he be allowed to enter the said land.

Given under my hand this 2d day of August, 1869. [au14-4w] L. B. AYER, Register.

ELECTION PROCLAMATION.

STATE OF CALIFORNIA,
BOARD OF SUPERVISORS, YOLO CO.,
Woodland, August 10th, 1869.

NOTICE is hereby given that a General Election will be held in the county of Yolo, on Wednesday, the 1st day of September, 1869, at which time the following officers are to be elected:

One State Senator of the Seventeenth District, of which Yolo county is a part.

One member of the Assembly from Yolo county.

Sheriff, County Clerk, District Attorney, county Assessor, county Surveyor, Public Administrator, county Treasurer, Supt. Public Instruction, and Coroner of the county.

One Supervisor of 2nd District, composed of Merritt, Putah, Buckeye and Cottonwood Townships.

It is ordered that the following statutes be herewith published as directed by law, to-wit:

RIGHT OF SUFFRAGE.

Qualification, Disqualification, and Privileges of Electors, as prescribed by the Constitution of the United States:

1. Every white male citizen of the United States, and every white male citizen of Mexico who shall have elected to become a citizen of the United States under the treaty of peace exchanged and ratified at Queretaro, on the thirtieth day of May, eighteen hundred and forty-eight, of the age of twenty-one years, who shall have been a resident of the State six months next preceding the election, and the county or district in which he claims his vote thirty days, shall be entitled to vote at all elections which are now or hereafter may be authorized by law; *provided,* that nothing herein contained shall be construed to prevent the Legislature, by a two-thirds concurrent vote, from admitting to the right of suffrage Indians or the descendants of Indians, in such special cases as such a proportion of the legislative body may deem just and proper. [Art. 2, §1.]

Quorum of the Board of Registration, and Temporary Vacancies therein:

135. SEC. 39. Whenever a meeting of the Board of Registration of any precinct is required to be held, two members thereof shall be a quorum for the transaction of business; and if in consequence of sickness, absence, or other temporary disability of any member, or a vacancy not filled, the attendance of but one member can be obtained, the places of the members absent may be supplied for that meeting by any two householders and legal voters of the precinct who have resided there continously for two years at least, to be appointed by the member in attendance, with the consent and concurrence of any Justice of the Peace of the county and in case of the inability to attend of the Clerk and both the Judges of Elections, any Justice of the Peace, with any two householders, legal voters of the precinct, by him to be appointed, shall act as the Board of Registration for that day. The householders aforesaid who may supply the place of absent members of the Board of Registration shall severally be sworn by the Justice of the Peace faithfully to discharge their duties as members of said Board according to law.

[This mode of filling vacancies is only to be pursued "when there is no Alternate present and consenting to supply it." See post, 148.]

By order of the Board of Supervisors of Yolo county. G. H. SWINGLE,
au14-td President.

AYER'S CATHARTIC PILLS

For all the Purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative Pill. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterous drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity. They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these Pills readily cure:—For Dyspepsia or Indigestion, Listlessness, Langour and Loss of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action. For Liver Complaint and its various symptoms, Bilious Headache, Sick Headache, Jaundice or Green Sickness, Bilious Colic and Bilious Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it. For Dysentery or Diarrhœa, but one mild dose is generally required. For Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back and Loins, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear. For Dropsy and Dropsical Swellings they should be taken in large and frequent doses to produce the effect of a drastic purge. For Suppression a large dose should be taken as it produces the desired effect by sympathy. As a Dinner Pill, take one or two Pills to promote digestion and relieve the stomach. An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these Pills makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus. DR. J. C. AYER & CO.,

AYER'S HAIR VIGOR,

For Restoring Gray Hair to its Natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always cured by its use. Nothing can restore the hair where follicles are destroyed, or the glands atrophied and destroyed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

Hair Dressing,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

WALTHAM WATCHES!

Let every one who wants a Watch, read this carefully. Especially if in some remote out-of-the-way place!

Now that the railroad is open, we propose to give the residents of California the opportunity of getting single Waltham Watches at the

LOWEST NEW YORK WHOLESALE PRICES!

We sell more Waltham Watches than any other establishment in the country, either wholesale or retail; we send great numbers to every section of the country by Mail and Express, carefully packed, and in perfect running order. Our plan is this: You want a Watch, and see our advertisement; now, we want you to first to write us for our Descriptive and Illustrated Price List; we will send it, post-paid, by return mail. It explains all the different kinds, tells the weight and quality of the cases, with prices of each; you then make a selection of the kind you prefer, and send us your order. We then send you the watch by Express, with the bill to collect on delivery. We give instructions to the Express Company to allow you to open the package and examine the watch; if it suits, you can pay and take it; if not, you are under no obligation to receive it; and if it is taken, and afterwards does not prove satisfactory, we will exchange it, or

Refund the Money.

As an indication of the Prices, we will quote one watch from our list. The P. S. BARTLETT, Lever Movement, with Extra Jewels, Chronometer Balance, Patent Pinion, Patent Dust Cap, and all the other late improvements, in a Solid Coin Silver Case, for

$28 in Greenbacks, or about $20 in Coin.

All other kinds, both gold and silver, in the same proportion. Do not order a watch till you have sent for a Price List, as it contains a great deal of information regarding these watches that will enable you to make an intelligent selection. Powell, deceased, to the creditors of, and all persons having claims against the said deceased, to exhibit them with the necessary vouchers, within ten months after the first publication of this notice to the said James N. Powell, Executor, at his residence about five miles north of Cacheville, in the county of Yolo, California.

Dated at Yolo county, July 24, 1869.

JAMES N. POWELL,
Executor of the last Will and Testament of G. W. Powell, deceased. jy24-4w

Land Notice.

NOTICE is hereby given that the undersigned will apply for a duplicate certificate of purchase (the original having been lost) for the following described lands, situated in Yolo county, being swamp land survey No. 460, to wit: Township 10 north, range 3 east, being parts of sections 15, 16, 21 and 22, Mt. Diablo Meridian. Said certificate having been issued to Jacob Rupely and now owned and claimed by the undersigned.

YOLO COUNTY DEMOCRAT.

County Official Paper.

TOWN AND COUNTY MATTERS.

FIFTEEN DAYS.—One J. B. Samuels, an U. P., who has made himself notoriously a nuisance by drunkenness, quarreling and fighting, was brought before Justice Henry last Saturday, charged with the theft of a Colt's revolver. The evidence in the case was somewhat mixed. He declared that he received the pistol from a woman living on the alley in the rear of Breckinridge's stable, she feeling a friendly interest in him and fearing that in his feeble innocence he might get hurt. The pistol she declared to have been the property of her dead husband killed in the war. The woman testified that she did let him have her dead husband's pistol and that it had the dear departed soldiers' name on it, but that the weapon in Court was not the one with which the dead hero had slaughtered his country's foes. Justice Henry, after sifting the evidence—and he had a good time doing it—concluded that Samuels was guilty and sentenced him to fifteen days in Jail.

ON THE HUNT.—Deer are quite numerous in the thickets, three miles north-east of town, and several have been brought in by lucky hunters. These successes have fired the hearts of several of our amateur sportsmen, and daily parties visit the thicket in hopes of a venison steak for breakfast. Early in the morning is said to be the best time and the boys go out with commissaries and blankets and stay all night to be around as soon as the deer. A party went out one day last week—slept, or rather remained in the thicket over night (they had several commissaries along with them). Early in the morning each took his station and waited but no deer came, and becoming tired they started for home, when it was discovered that one of the sportsmen had stood manfully at his post two long hours without a load in his gun. He claims that he knew it all the time, but as the deer had never bit him he did not want to hurt them.

DISCUSSION.—One Neil Fitzsimmons was arrested on Wednesday by officer Boyle for assault and battery. The prisoner when in Court would talk. He occuped the floor to the exclusion of Justice, District Attorney and all the rest of them. He was boisterous and threatening until finally the Court ordered him committed for contempt. Officer Ned Boyle made the attempt to enforce the order when Mr. Fitzsimmons went for him and found him. Result, Fitzsimmons with a good head erected upon him and Boyle minus a shirt. The prisoner was put in a hack and carried to jail. When inside he assaulted Boyle with the leg of a table; a nice little skirmish ensued, Boyle getting the best of it, when Fitzsimmons was locked in a cell. It was found upon examination, that he had upon his person a stolen coat and several other articles of wearing apparel, which were identified. He is a desperate bad case.

ESTRAY.—A boy about six or seven years old made his advent in town last Saturday with a violin well-tuned, and from which he managed to extract some music. He soon had about him an admiring crowd of youngsters who were enthusiastic in their admiration of the incipient Ole Bull. One of our citizens, having seen in a Sacramento paper a notice of a lost boy, concluded that this musical prodigy must be the one, and chartering a buggy took him to Sacramento to find that he had caught the wrong boy, and also to find that his hopes at an offered reward were blasted, and his purse thinner some dollars, the amount paid for buggy hire.

OPENING EXERCISES.—There will be a general mass meeting of the friends of Hesperian College and of the cause of education, on the evening of Aug. 23d, at the College Chapel, in this town. Hon. W. W. Pendegast, O. P. Fitzgerald and other distinguished gentlemen are expected to be present. The California Pacific R. R. Company have extended the courtesy of half-fare tickets to those desiring to attend from a distance. Entertainment will be provided for strangers reporting themselves at the College Chapel, to O. B. Westcott, J. M. Garoutte or G. W. Greene.

HON. F. L. B. GOODWIN.—Our notice of the Democratic meeting at Davisville last week, was like the play of Hamlet with Hamlet left out. *The* speech of the occasion was that of the above named gentleman, and was logical and eloquent. Mr. Goodwin, like Vallandigham, believes that the "world moves," and in his address discussed living issues.

SUPERVISORS.—The Board of Supervisors were in session Monday and Tuesday, setting as a Board of Equalization. It was ordered that parties holding unassessed mortgages should be notified by the County Clerk to show cause on Wednesday, the 18th inst., why such mortgages should not be assessed. Adjourned to 18th inst.

GIFT ENTERPRISE.—We call attention to the advertisement of Sam'l Lee in to-day's paper. A good chance to invest a dollar and gain a stake or become a real estate owner. The houses and lots are in a good location; there is no discount on the $250 in gold coin, and the watches are worth all they are appraised.

COLLEGE GROUNDS.—The Trustees of Hesperian College having decided to enclose the College grounds, a handsome and substantial fence is being constructed. The planting of a few trees to fill vacancies in addition to the grand old oaks, will make the College square a model park in miniature.

TOO LATE.—Frost's advertisement too late for this issue. He has for sale one of the best ranches on Willow Slough. If any one doubts the increased activity in business and general prosperity of this part of the county, let him spend an hour in Frost's real estate office.

INCORPORATION.—We neglected to state in the last week's issue of the DEMOCRAT, that the Board of Supervisors had postponed the consideration of the petition for incorporating the town of Woodland, until the September session.

NEW FAMILY GROCERY STORE. — Messrs. Proulx & Lacroix have opened a Family Grocery Store in Morin's Building, opposite the Bank. They have a clean new stock, and mean to succeed by deserving success. See card in another column.

WORTH SEEING.—In the block on which stands the Court House, may be seen growing finely the fourth crop of Chili clover, ready for cutting, and looking most invitingly green and cool amidst the surrounding arid looking grounds.

THE WEATHER, which had been almost insufferably hot for more than a week, cooled off under the lively fanning of a South breeze on Thursday, and it is now not only possible to live but really pleasant.

COLLEGE COMMENCEMENT.—The first session for 1869-70, commences one week from next Monday. There is a prospect for a larger attendance than ever before.

HOT.—Last Saturday, during the eclipse, was superlatively hot. It is impossible to tell how hot it would have been that afternoon had the sun had half a chance.

SETTLED.—The District Assessors made their annual settlement with the Board of Supervisors at its last meeting. Their books and accounts were in proper order and correct.

WHO KNOWS Dr. E. Williams, of El Dorado, and his son, W. Williams? We don't suppose anybody does. Williams and son came to town early in the week and stopped at the Hunter House. They had a good room and good grub, and they talked pretty, knew all the prominent men in the State. The Dr. had been a newspaper-man and a confidential adviser of Senator Gwin, and he asked all the Hunter House boys to take a "glass of wine," too high toned to say whisky; and he took a ride and asked the landlord to let him have $5 to pay the man—would settle in his bill. But father and son arose very early Friday morning and walked to the Depot, and there they were confronted by the irate landlord of the Hunter House, who demanded settlement. The "Dr." said in a very careless way that he had no money for him, whereupon several significant "clicks" were heard, and Dr. Williams and son got on the cars just in time to save themselves, for it was not the landlord's fault that his pistol missed fire.

CIRCUS.—Our readers cannot have forgotten the "Great World's Circus," the feats of Zoyara and the wit and humor of the inimitable Harry Jackson. Well, the circus, with Zoyara and Jackson, and the lions and all the rest of them, will exhibit here to-night, and at Knight's Landing Sunday; and all who come late had better bring chairs or a box or anything to sit upon, as there will be a crowd.

TELEGRAPH.—The wires of the Atlantic and Pacific Telegraph Company are up, connecting Woodland and Knight's Landing with the world outside. This Company have lines to Virginia city, Salt Lake and intermediate points; also, South to Gilroy, and to all the principal places in California and Nevada. To this Company should be given the credit for the recent reduction in the cost of telegraphing.

OUT AND IN.—Our U. P. friend, Samuels, having got out of jail on Friday, immediately resumed his normal condition of a drunken nuisance. His actions were scandalous and insulting to the whole community, and we are surprised that he was not summarily dealt with. He was taken into custody just at night and just in time to save him from having a "head" erected on him.

EAGLE SEED SOWER.—A working model of this invention may be seen at the Planter's House. It is very simple in its construction, cheap, and we think useful. R. Chandler, agent, will be glad to give information and practically illustrate its adaptability to the uses for which it is intended.

SHOOTING.—We are informed that a shooting affair occurred near Ryan's, in this county, yesterday. The party shooting gave himself up and is in jail. We cannot give the particulars this week.

EXTENSION.—The time for receiving proposals for building the Catholic Church, has been extended to September 1st. See notice of Committee.

DR. BRYANT.—See in another column, card of Dr. Bryant, of Davisville. Office at Haight's Drug Store.

DIED.

Near Knight's Landing, Yolo county, August 11th, MRS. JANE MORRIS, wife of Asa W. Morris, aged 31 years.

[The deceased was a most estimable lady, possessing a warm heart, a cultivated intellect—in short, all those qualities that elevate and adorn the female character. She was an exemplary Christian, and died in the inspiring hope of a blissful immortality. Her numerous friends and acquaintances deeply deplore her loss and warmly sympathize with her bereaved and disconsolate husband. In sadness and sorrow we laid her in the grave, there to repose until "this corruptible shall put on incorruption, and this mortal shall put on immortality."] *

SPECIAL NOTICES.

DYSPEPSIA IN THE PACIFIC STATES.—Nowhere in the United States has dyspepsia heretofore been more general, or marked with more distressing symptoms, than in California. Luxury, high living and dissipation in the cities; hardship, privation, irregular habits and the effects of malaria in the mining regions, have combined to render Chronic Indigestion one of the most terrible scourges of the Pacific States. It is a source of satisfaction, therefore, to be able to report the gradual and steady decline of the disease and its distressing concomitants on this side of the Continent. As this happy change began to be perceptible soon after Hostetter's Stomach Bitters had attained the rank of a standard remedy in this region, and as it has become more and more apparent, in proportion to the increased sales of the great vegetable specific, reason suggests that the bane has been ameliorated and checked by the operations of the genial elexir advertised as an antidote. Unprejudiced physicians admit this to be the fact, and abandoning all the ordinary stimulants, as well as the astringent tinctures and mineral excitants of the pharmacopœia, are now prescribing the Bitters as a cure for every form of indigestion. The preparation possesses three great advantages over every other so-called stomachic. It is not merely a tonic, but combines the properties of an antibilious medicine, a gentle laxative, and a blood-depurent, with those of a wholesome stimulant. It neither depletes nor excites; but strengthens, soothes, purifies and restores. No medicine ever introduced into the Pacific region has so entirely gained the confidence of every class of society, or approached in the extent of its sales HOSTETTER'S STOMACH BITTERS. au3-1m

ASIATIC CHOLERA.—THE STRONGEST PROOF OF INTRINSIC MERIT.—DEAR SIR.—I ought to have acknowledged long ago the box of Pain Killer you had the goodness to send me. Its coming was most providential. I believe hundreds of lives were saved, under God, by it. The Cholera appeared here soon after we received it. We resorted at once to the PAIN KILLER, using as directed for Cholera. A list was kept of all to whom the Pain Killer was given and our native assistants assured us that eight out of every ten to whom it was prescribed, recovered. It has proved an incalculable blessing to multitudes of poor people throughout all this region. Our native preachers are never willing to go out on their excursions without a supply of the PAIN KILLER. It gives them favor in the eyes of the people, and access to families by whom otherwise they would be very indifferently received. Believe me, gratefully and faithfully yours, J. M. JOHNSON,

Business men, worn by care and sedentary habits, often suffer from constipation of the bowels, until the evil consequences of such a condition are realized in extreme debility, nervousness and prostration of the vital energies of the system; and it may be safely asserted that a majority of the female sex are little better than invalids, from the same cause; but by using Dr. Walker's Vinegar Bitters, this natural aperient and tonic brings back the vigor and bouyancy of health.

An exchange says: "The surprising curative efficacy of Dr. Walker's Vinegar Bitters, in a great variety of chronic diseases, especially those which prove obstinate, and incurable by ordinary treatment, cannot be explained. Nature, aided by art, has here provided a rare combination of medicinal properties, wisely adapted to the cure of diseases common to all mankind."

The effect of Dr. Walker's Vinegar Bitters, even when taken for its cathartic properties, are very different from those of any other medicine prepared specially for that purpose.

There is no nausea or disturbance of the stomach, and instead of causing any sense of languor, or debility, it seems rather to invigorate the whole system, and excite the keenest appetite.

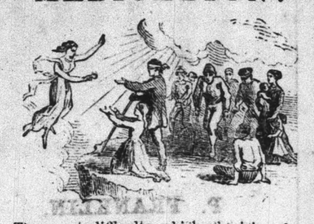
THE LATEST DISCOVERY

IN

MEDICATION!



The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A Vegetable Cathartic and alterative more efficient than any mineral preparation of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

Dr. Erasmus Winslow's Liver and Stomach Lozenge is the most important medicinal novelty that modern chemistry has produced. It contains two botanical extracts, perfectly harmless in themselves, but embodying all the remedial properties of mercury, and destined in this pleasant form to supereede and banish from general use the nauseous pills and potions of which that dangerous excitant is the main ingredient. More than one thousand experiments were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and although the medicinal taste of its curative components has been extinguished by chemical art, their virtues remain as active and potent as ever.

In Dyspepsia, Biliousness, Constipation, sick or nervous Headache, Piles, Dropsy, and the irregularities to which the feeblor sex are subject, the Lozenges will be found infinitely more effective than any of the horrible and disgusting compounds usually administered in such cases. As an anti-bilious specific and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopœia.

☞ It is guaranteed that no one who has once tried Dr. Erasmus Winslow's Liver and Stomach Lozenge, will ever again take a purgative powder, or draught, or pill. jy24-1y

Payable in seventeen Monthly Installment.

Lots Represented by Shares 50 by 160 Feet.

Lands Immediately Adjoining the City Limits.

Title Perfect!

Payments to begin July, 1869, and to close November, 1870.

This Homestead addition to the City of Sacramento offers unrivaled inducements to all who desire to secure homes, as well as to those seeking to make investments in real estate. Shareholders who pay up in full may take possession of their lots under restrictions consistent with the interests of all Shareholders and an equitable distribution of the property. These restrictions are briefly: 1. Payment in full within six months from July 1st, 1869. 2. Not more than six lots in any one block shall be assigned; only two of which shall be corner lots, and only one corner and two inside lots on the same side of a block. This feature will secure the immediate settlement and rapid improvement of the lands, and a consequent enhancement of its value. The line of the Sacramento Valley and Western Pacific Railroads run through the plat, and an agreement and bond has been executed by the former Company to run trains on schedules of time equal to the accommodations afforded by street railroads. Thus by reason of being conveniently accessible, these lands are brought within the range (in value) of those more centrally located, and will find early occupancy. In every feature of this scheme the Homestead principle—which has been so prolific of good to citizens of moderate means, promoting the growth of our State and its cities and distributing the ownership of Realty among the many—has been carefully guarded. It may safely challenge comparison or competition.

Articles of Association, containing maps of plat, and showing its relation to the city, will be furnished upon application. Shares may be secured by forwarding the first installment of Ten Dollars to the Secretary, who will also furnish any desired information.

CALIFORNIA VINEGAR BITTERS!

Manufactured from the native Herbs and Roots of California.

The Great Blood Purifier!

For Inflammatory and chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious Remittent and Intermittent Fevers, diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such diseases are caused by Vitiated Blood, which is generally produced by derangement of the digestive organs.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptiyns, or sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood healthy, and all will be well.

"The life of all Flesh is the Blood thereof." Purify the Blood and the health of the whole system will follow. It is a Gentle Purgative as well as a Tonic.

These Bitters are not a gilded Pill, to delight the eye or please the fancy, but a medical preparation, composed of the best vegetable ingredients known.

This valuable preparation, containing in a highly concentrated form all the properties of Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs.

As a tonic, it will be found invaluable to all persons recovering from debility, whether produced by fever, or otherwise; for while it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.

It gives immediate relief to Nausea, caused by riding in a railroad car, or by sea-sickness, or other causes.

It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc.

It should always be used after shaving, diluted with water, as it relieves all inflamation.

ELECTRO-SILICON,

—OR—

MAGIC BRILLIANT!

Direct from Nature's Laboratory.

The best article ever discovered for cleansing and polishing gold, silver, and plated-ware, and all smooth metallic surfaces, of whatever description, including kitchen utensils of tin, copper, brass, steel, etc.

To Jewelers and workers in gold and silver-plate, the Electro-Silicon is of inestimable value; the time saved, and the vexation prevented by its use, will forever endear its name to all who have had evidence of its merits.

A Merry Heart.

'Tis well to have a merry heart,
However short we stay;
There's wisdom in a merry heart,
Whate'er the world may say!
Philosophy may lift its head
And find out many a flaw,
But give me that philosophy
That's happy with a straw.

If life but brings us happiness,
It brings us, we are told,
What's hard to buy, though rich ones try,
With all their heaps of gold!
Then laugh away—let others say—
Whate'er they will of mirth;
Who laughs the most may truly say
He has the wealth of earth.

There's beauty in a merry laugh—
A moral beauty, too—
It shows the heart an honest heart,
That's paid each man his due,
And lent of what's to spare,
Despite of wisdom's fears,
And made the cheerless sorrow speak—
The eye weep fewer tears.

The sun may shroud itself in clouds,
The tempest's wrath begin,
It finds a spark to cheer the dark—
Its sunlight is within!
Then laugh away—let others say
Whate'r they will of mirth—
Who laughs the most may truly boast
He has the wealth of earth.

A DOUBTFUL CHARACTER. — "Gentleman of the jury," said a western lawyer, "I don't mean to insinuate that this man is a covetous person, but I will bet five to one that if you should bait a steel trap with a new three cent piece and place it within six inches of his mouth you would catch his soul. I wouldn't for a moment insinuate that he will steal, but, may it please the Court and gentlemen of the jury, I wouldn't trust him in a room with red hot millstones, and the angel Gabriel to watch 'em."

WHEN General Lafayette was in the United States, two young men were introduced to him. He said to one—

"Are you married?"

"Yes sir," was the reply.

"Happy man," quoth the General.

He then put the same question to the other, who replied, "I am a bachelor."

"Lucky dog," said the General.

This is the best essay on matrimony extant.

A DANDY strutting about a tavern, took up a pair of green spectacles which lay on the table, and put them on his nose, and turning to the looking-glass, said:

"Landlord, how do these become me? don't you think they improve my looks?

"I think they do," ripled the landlord, "they hide a part of your face."

PARTON asks, "Will the coming man drink wine?"

Dr. Adams asks, "Will the coming woman wear crinoline?"

Josh Billings wants to know, "if the coming dog will whine?"

And the head of the family inquires, "Will the coming boy be mine."

A FRIEND of ours thus describes the patience of a husband with whom he is acquainted:

He never said a word,
But, with a look of deepest melancholy,
He sat like Patience on an ottoman,
Waiting for his wife to put her bounet on.

EXPERIENCE.—Josh Billings says: "Most people decline to learn only by their own expereince, and I guess they are more than half right, for I don't spose a man could get a corract idea of molasses candy merely by letting another fellow taste it for him."

SPEAKING of last words, that was a strikingly appropriate remark of a California stage driver, who, on his death bed was visited by a brother "whip." Said he, "Bill, I am on the down grade, and can't reach the brake."

THOUGHTLESSNESS.—A widow once said to her daughter: "When you arrive at my age, it will be time enough to dream of a husband." "Yes, mamma," said the thoughtless beauty," for a second time."

IN China, if a young man is not married by the time he is twenty years of age, he is drummed out of town. No doubt the young ladies of this country wish such a custom prevailed here.

SMOKING.—Ladies don't know whether they like smoking or not. With special favorites they like it, with general favorites they don't like it, and with no favorites they detest it.

TOM asked an old "ten-per-cent" what he wanted to accumulate so much money for. Says he, "You can't take it with you when you die, and if you could it would melt."

"WHATEVER made you marry that old woman?" said a mother to her son. "Because you always told me to pick a wife like my mother," was the dutiful reply.

THE oldest piece of furniture is the multiplication-table. It was constructed more than two thousand years ago, and is yet as good as new.

A GENTLE YOUTH.—"Bill, where has Joe gone?" "I don't know. I guess he's in the kitchen, putting the cat in the tea-kittle. He has just cut her ears off."

"PATRICK, you fool, what makes you steal after the rabbit when your gun's not loaded?" "Hush, me darlint, the rabbit doesn't know that."

"YOUNG MAN, do you believe in a future state?" "In course I duz; and what's more I intend to enter it as soon as Betsey gets her things ready."

MAY.—While a young widow is weeping over the memory of her husband, she may fish up a successor in the dark stream of her tears.

DANCING.—Some ladies are so fond of dancing that they would like to take a good dance with St. Vitus round St. Anthony's fire.

CUPID shoots with a rifle now, and not with a bow and arrow. Else how is that girls can bear the popping of the question.

SOME say that the quickest way to destroy weeds is to marry a widow. It is, no doubt, a most agreeable species of husbandry.

WHEN does a member of Congress display most physical strength? When he moves the House.

DARNED.—Stockings are now darned by machinery, and they are darned nice.

WHO are the most willing prisoners? Those who are locked in slumber.

GOLD.—Never use a gold snuff-box. Gold is not to be sneezed at.

MORE.—It does more good to whip carpets than children.

THE miner is the happiest when his "triumphs are ore."

FANNIES.—Fans are good, but Fannies are better.

Pacific Protective Association of California.

Incorporated.....Oct. 1868.

OBJECT.

The object of this Association is to secure a cash payment, within sixty days after the death of a subscriber, to his or her heirs or assigns, of as many dollars as there are individuals of the class to which said deceased subscriber belonged.

MEMBERSHIP.

The subscription fees are TEN DOLLARS at joining, and ONE DOLLAR on the death of each subscriber. The One Dollar from each subscriber is paid to the heirs or assigns of the deceased.

THE FUNDS.

The By-Laws of the Association require that a portion of the money received as subscription fees shall be a sinking fund to meet assessments falling due by the delinquencies of subscribers. The balance of the money received to be used for the expenses incurred by the Association.

MEMBERS.

A subscriber failing to pay his or her assessment of one dollar within Thirty Days from receipt of notice forfeits his or her Certificate, and all claims upon the Association, unless good cause is shown for further delay. A subscriber can forward money in advance, which amount will be credited on future assessments. The subscribers are divided into classes including males and females. Each class is limited to 5000 subscribers. As classes are filled, new ones will be formed. No person is so poor that he cannot pay Ten Dollars at joining and One Dollar occasionally, thus securing $5000 to his or her heirs or assigns.

ADVANTAGES.

The advantages of this Association are, that no money panic can effect it. Its benefits are easily attainable by all, and every subscriber added to the Association enhances the interest and protection of all; the amount paid being so small, and only at long intervals, that any person can secure for his family a competency upon his death.

CLASSES.

In class A, all persons between the ages of 15 and 40 year. In class B, all persons between the ages of 40 and 60 years. Any one that has not stated his or her age correctly, will forfeit all money paid and his or her certificate.

One class cannot be assessed if one of another class dies. Classes have no connection with each other.

HOW TO BECOME A MEMBER.

A person desirous of becoming a subscriber must fill out an application and forward with it Ten Dollars by check, draft, or by Express, in gold or silver coin. Persons can pay agents, when regularly appointed and authorized to receive money. Each subscriber should interest himself in obtaining new members; by so doing all are benefitted.

G. J. OVERSHINER,

CARRIAGE AND WAGON MANUFACTURER,

Main street, (opposite Gray & Freeman's,)

WOODLAND.

I would call the attention of the public to this well-known shop, where I manufacture to order and keep constantly on hand for sale

Carriages, Buggies, Sulkies, CONCORD STYLE THOROUGHBRACE

—AND—

LUMBER WAGONS,

—FROM THE—

BEST EASTERN MATERIAL,

Selected by myself!

All work manufactured at my shop is under my own immediate supervision, and up to the requirements of the times, of the latest style, and the most

APPROVED PATTERNS AND FINISH!

I employ no "foreman," for 30 years' experience in the trade—10 years in the Eastern States, 20 years on the Pacific coast, (including 9 years superintendence of the "Pioneer Carriage Shop," Sacramento,) justifies me in assuming that position. Delegating to none the supervision of my work, I am enabled to

Guarantee Satisfaction!

My LARGE and SPACIOUS SHOPS enable me to store large quantities of material, and my

SEASONING FACILITIES,

(the only perfect seasoning apparatus on the coast) enable me to defy competition in quality of seasoned work. For verification of above, one has only to examine my facilities in this line, and compare them with those in other shops. I do not pursue the course adopted by many; on the contrary, I season stock before working, and do not put up green stock in wheels, leaving them to season afterwards. I have and keep on hand a large stock of

OAK and HICKORY SPOKES,

of all sizes and the finest material the market affords. Also a large variety of

Elm and Locust Hubs.

Having given the Oak Hub a fair trial, I have become convinced that they are *unfit* for first-class work. Parties who may favor me with their patronage may be assured that

No green oak hubs will be found in my work!

In this connection I would call particular attention to my NEW STYLE LOCUST HUB, turned from my pattern, and imported expressly for this trade and

Found only at my Shop!

Also made to order all kinds of

FARMING IMPLEMENTS!

Plows, Harrows, &c

I have now on hand Harrows of all sizes, with STEEL TEETH, superior to the imported article. In short, I am prepared to fill all orders, from a **Wheelbarrow to a Hornet's Nest.**

The PAINTING and TRIMMING DEPARTMENT

is equal to the best, and particular attention is paid to repairing and trimming old work.

BLACKSMITHING,

In all its branches, is connected with the wood-work, and both are under my supervision.

I have on hand, for sale,

Plow-beams and Handles, Neckyokes, Singletrees, Stretchers, Clevises, Fifth-chains, Lap-Rings, Harrow-Teeth, Etc., Etc.

All kinds of Plow and Wagon repairing done with neatness and dispatch. Determined to adhere to my long-established rule of manufacturing only the

Best Work from the Best Stock,

and having served my time at the two branches of carriage-work, (wood and iron) enables me to guarantee satisfaction in all cases, and to know, as foreman of my own shop, when work is

WELL DONE.

To those who have heretofore dealt at other shops, and consequently are unacquainted with my work, I would say GIVE ME A CALL and examine my stock and work. Believing that the surest test of the value of my work can be had in the verdict of those who use it, I respectfully refer the public to

The following named Gentlemen

who have and now are using Wagons and Buggies of my manufacture: E. Giddings, J. Laugenour, J. Aldrich, Mr. High, H. Rhoades, Mr. Taylor, J. Jones, L. B. Ruggles, Gray & Freeman, J. ☞ Thankful for past patronage, I respectfully solicit a continuance of the favor.
